PROFESSIONAL SUMMARY

Final-year B.E. Computer Science student specializing in AI and Machine Learning, with hands-on experience in end-to-end ML pipelines, web development, and industrial software systems. Detail-oriented and adaptable, with a strong drive to build reliable, user-focused AI applications. Targeting AI/ML engineering internships and planning to pursue a Master's degree abroad.

EDUCATION

B.E. Computer Engineering (AI & ML Specialization)

Expected May 2027

St. John College of Engineering & Management • Palghar, India

- ▶ Capstone Project: NUTRI AI — AI-driven real-time nutritional recognition system using CNNs and pose detection
- ▶ Designed end-to-end ML pipeline from data collection, model training (TensorFlow/Keras), to real-time evaluation via PC webcam
- ▶ Additional Project: Urban Water Intelligence — AI/ML-based water demand forecasting system for smart city applications

TECHNICAL SKILLS

Languages	Python, C++, Java, C, JavaScript, CSS, Kotlin
AI / ML	Machine Learning, CNNs, Generative AI, TensorFlow, Keras, Matplotlib, Data Forecasting
Web & Mobile	Angular, RESTful APIs, Component-Driven UI, Unity (C#), Kotlin (Android)
Core CS	Data Structures & Algorithms, OOP, DBMS, Computer Networks, OS
Tools	Git, VS Code, Jupyter Notebook, Google Cloud Platform

EXPERIENCE

Metaverse Development Intern

November 2025

IOFT • Mumbai, India

- ▶ Developed interactive game features in Unity (C#) including gameplay mechanics, collision detection, and basic AI behaviours
- ▶ Worked on UI integration, animation systems, debugging, and performance optimization
- ▶ Strengthened OOP design patterns and problem-solving under a production-style environment

Angular Developer Intern

November 2025

IOFT • Mumbai, India

- ▶ Built Angular-based web applications with component-driven architecture and RESTful API integration for dynamic data handling
- ▶ Improved frontend debugging skills and contributed to structured UI component libraries

Software Developer Intern

May 2025

Tata Steel CRC • Boisar, India

- ▶ Observed and documented software systems used in coil production and quality monitoring workflows

- ▶ Gained exposure to industrial automation processes and internal software tooling at a large-scale manufacturing facility

CERTIFICATIONS & TRAINING

Generative AI & LLM Training — Google Cloud (Cloud Arcade) *(Ongoing)*

Deloitte Technology & Cyber Job Simulation — Forage *(February 2026)*

Metaverse Training (Grade: O) — IOFT × SJCEM *(November 2025)*

Data Analyst Certification — Codify Institute *(December 2024)*

Drone Technology Training (Grade: O) — Vama Skylight *(December 2024)*

ACTIVITIES & LEADERSHIP

- ▶ NSS (National Service Scheme) Volunteer — coordinated special events, managed logistics, and facilitated community programs at SJCEM
